

BOLD LEADERSHIP

To Return Jobs And People To Connecticut

Connecticut can thrive again. We did it over a decade ago when there was a politically balanced, pro-business General Assembly.

While families and businesses have tightened their belts, state government refuses to stop spending. The state has borrowed more than ever before, dangerously underfunded pensions and enacted a large tax increase that has jobs and people fleeing the state.

We need to get people back to work by creating an environment where jobs can grow, families can thrive and seniors can afford to stay in their homes.

To promote economic growth, all lawmakers must be focused on pro-jobs policies that include:

- Reduce business costs and phase out onerous taxes on cars, pensions, real estate and inheritance
- Cut the size of state government by consolidating state agencies and providing some services through lower-cost non-profits
- Reduce the cost of state government and pay down debt by renegotiating state employee wages and benefits and replacing expensive state pensions with 401(k) plans
- Reduce payroll costs; streamline regulations and permitting processes
- Lower health care costs by reducing mandates and enacting tort reform

STATE SENATOR **Toni**
BOUCHER

Fighting for the change we need to create jobs, reduce the cost of doing business, and make life more affordable in Connecticut.

BOLD LEADERSHIP • REAL RESULTS

PEOPLE CREATE JOBS, NOT GOVERNMENT.

A fiscal watchdog, State Senator Toni Boucher voted to reduce taxes and cut reckless spending and borrowing. Toni proposed a pro-jobs agenda to get Connecticut back to work.

“We need to stop pricing jobs and people out of our state. Hartford must end its addiction to spending fueled by massive borrowing and job-killing taxes. Connecticut needs a tax policy that attracts jobs.”

Real change starts by electing those with the courage and will to make the difficult decisions that will restore Connecticut jobs and revive our economy.
